

ID Number: _____ Date: _____

Choose the correct option.

During correction in plenary put a cross on P(Positive) if you chose the correct option or cross on N(Negative) if you chose the wrong option.

Total Correct answers: ____/14 (Sufficient = correct answers n. 9)

The test is passed YES NO

Signature of the Teacher _____ Signature of the Coordinator _____

N°	Question	Answer	Outcome Positive = P Negative = N
1	 <p>What does this symbol mean?</p>	a) Pay attention to vehicles moving around the construction site; b) No access for unauthorized persons; c) Access authorized for identification badge owners, d) Stop! Identification required; e) Give way to operating machines;	◇ P ◇ N
2	 <p>What do the colours mean?</p>	a) There isn't a difference between colours; b) Blue voltage 380 V and Red voltage 220 V; c) Blue is for domestic use and Red is for the construction site; d) Red voltage 380 V and Blue voltage 220 V; e) Red voltage 380 V and Blue voltage 24 V; f) It depends, if they are used in the construction site	◇ P ◇ N
3	 <p>What does this symbol mean?</p>	a) It is mandatory to wear headphones; b) It is mandatory to wear ear plugs; c) Hearing protection is suggested; d) Noise hazard above 80 Decibels; e) Hearing protection is required;	◇ P ◇ N

N° Dom.	Question	Answer	Outcome Positive = P Negative = N
4	 What is the safe working distance?	a) The minimum working distance from an electric voltage is always 5 m; b) The minimum working distance is 5 m if the crane uses the forks; c) The minimum working distance depends on the specific situation (type of voltage, weather conditions, type of crane); d) Distance isn't important because electrical cables are always isolated;	◇ P ◇ N
5	 What does this symbol mean?	a) Warning! Workers using safety harness belts; b) Fall from height risk; c) Wear mandatory personal protective equipment to protect against falls from height; d) Docking point; e) Prohibited to use safety harness belts and scaffolding;	◇ P ◇ N
6	 What does this symbol mean?	a) Emergency Assembly Point in case of an emergency; b) Fire risk area; c) Electrical equipment must not be used on site; d) Class II or double insulated electrical appliance	◇ P ◇ N
7	 What does this symbol mean?	a) Warning! Electric discharges from the crane; b) Lightning fall! Dangerous area for workers to move around; c) Danger! High voltage; d) Connect concrete mixers and cranes; e) Make sure the electrical appliance is properly plugged into the power socket;	◇ P ◇ N
8	 What does this symbol mean?	a) Danger of chemical product forbidden to pregnant workers; b) Harmful chemical product; c) Irritating chemical product but it is not present as a danger on construction site; d) Irritating chemical product such as cement;	◇ P ◇ N

N°	Question	Answer	Outcome Positive = P Negative = N
9	 What does this symbol mean?	a) Fire hose; b) Portable or mobile powder extinguisher; c) Portable fire extinguisher; d) Mobile powder extinguisher e) Mobile CO2 fire extinguisher;	◇ P ◇ N
10	 What does this symbol mean?	a) It indicates the path to follow in the event of a fire on the site; b) It indicates a generic danger in that direction; c) It Indicates the path to follow in the event of an emergency; d) It Indicates a danger of crowding;	◇ P ◇ N
11	 Where can I find this signage?	a) Near to a fire extinguisher; b) Near to electrical outlets; c) On a cement mixer; d) On an electrical panel;	◇ P ◇ N
12	 What does this symbol mean?	a) Danger of falling rocks from the crane; b) Lightning fall, dangerous area for workers to move around; c) Warning! suspended loads; d) Forbidden area for pedestrians due to falling objects;	◇ P ◇ N
13	What does it mean to have a Medical Representative on the construction site?	a) It means that if I need a drug he/she can give me the drug; b) It means that in the event of an accident I must be taken by him/her to the emergency room; c) It means that on the construction site there is health surveillance and I am periodically visited; d) No answer is correct;	◇ P ◇ N

N° Dom.	Question	Answer	Outcome Positive = P Negative = N
14	Why can't I drink alcohol during work time?	a) Because I become too cheerful; b) Because I fall asleep; c) Because I become nervous; d) Because alcohol reduces attention spans and this can cause injuries;	◇ P ◇ N

Which Non Technical Skills are important for safety performance?

Non-technical skills include cognitive, social and personal skills that, together with technical skills, help to work safely

What Non Technical Skills for safety performance do you use at work? Explain them talking about situations where you used them.
